***Examiner's Statement of Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The Applicant has demonstrated the result of promoting bone formation in a mammal in need thereof by administering to the mammal a therapeutically effective amount of a crosslinked amine polymer having a repeat unit of a formula represented by the structures in claim 2. The mammal is not suffering from hyperparathyroidism, hyperphosphatemia, or osteitis fibrosa.

Holmes-Farley *et al.* (US 5,667,775) disclose the use of the crosslinked amine polymers of the instant invention in a method of removing phosphate and for the treatment of hyperphosphatemia.

Therefore, the prior art does not teach the instant method of administering a therapeutically effective amount of said cross-linked amine polymers to a patient who is not suffering from hyperparathyroidism, hyperphosphatemia, or osteitis fibrosa for promoting bone formation or for the treatment of osteoporosis.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
